LOKO I'A 2.0 IS HERE!

We are pleased to announce the release of Loko I'a 2.0! Loko I'a is the iPhone app that allows you to explore a Native Hawaiian fishpond through guided on-site and virtual tours, photos, narration, natural history, culture, and science.

New features in 2.0 include Real-Time Data from water quality sensors in the fishpond, Mea Ola - pond life, and 'Ike Hawaii - Hawaiian knowledge.

If you're already a Loko I'a user, we think you are going to love this new version. If you don't yet have Loko I'a on your iPhone*, download it today – it's free!

Our goal is 10,000 downloads to help promote awareness of these uniquely Hawaiian spaces. Please consider submitting a review in the App Store and inviting your friends to check it out!

Available on the App Store

Preview it in the iTunes Store or search "Loko I'a" in the Apple App Store.
